Description:

A rainstorm observed over the east coast is anticipated to move westwards to affect areas in the central and western regions later this morning into the afternoon. The storm is expected to produce moderate to heavy rains with thunder within these regions.

Instruction:

Stay indoors to protect yourself from heavy rain, thunder, and strong winds. Stay away from low-lying areas, riverbanks, and other flood-prone regions. Flash flooding can occur quickly. If you must travel, drive with caution. Roads may be slippery, and visibility can be reduced due to heavy rain. Avoid driving through flooded areas
