Forest	22	28
Transition	23	28
Northern	25	31

SUMMARY: Thunderstorms with rains of varying intensities are currently being experienced over some portions of the transition and middle sectors. The rains are expected to spread to affect more areas from this evening into the night hours. The coastal and northern sectors will remain partly cloudy with slight haze affecting the extreme upper portions of the northern sector as well. Early morning mist or fog patches may form over the coast, forest and mountainous areas tomorrow which may affect visibility.
