Weather Icons

Rain	Wind	Dust	Hail	Mist	Fog

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	34
Forest	23	35
Transition	22	37
Northern	25	41

SUMMARY: With reference to the *Evening forecast* sent earlier, the thunder and rain clouds producing thunderstorms or rain of varying intensities over the middle, transition and parts of the northern sector is expected to persist throughout the night hours. Early morning mist or fog patches will occur over areas within the mountainous and forest zones. As the day goes by, sunny conditions will be observed over most sectors with the likelihood of thunderstorms with or without rain within middle, transition and slightly north of the coastline.
