Weather Icons

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	25	33
Forest	25	35
Transition	23	36
Northern	26	40

SUMMARY: Mist and fog patches will form over a few coastal, as well as parts of the forest and mountainous areas this morning with partly cloudy conditions prevailing elsewhere. From mid-morning into afternoon, mostly sunny weather with intermittent cloud cover will dominate southern Ghana, while the north remains predominantly sunny. However, from late afternoon into the night, thunderstorms or rain are expected, particularly over the transition belt and parts of the northern and middle sectors including a few inland areas along the coast.
