WEATHER: The country's marine space will persistently be cloudy throughout the forecast period, with a 60% chance of thunderstorms and rainfall of varying intensity from light to heavy, affecting most areas, especially the west and east coasts, in the morning. The storm will be accompanied by gusty winds and is expected to elevate the wave heights. The West Coast is expected to experience dangerous sea state during the period of severe storms in that area, from late morning to early afternoon (10:00-14:00).
