<b>Northern</b>	<b>24</b>	<b>37</b>

**SUMMARY:** This morning, some coastal, forest, and hilly areas in southern Ghana may experience mist or fog with intermittent slight rain. As the day progresses, the weather will become brighter with periodic clouds. Later in the afternoon into the evening, a few places along the coast and within the middle sector are likely to experience thunderstorms or rain. In northern Ghana, the weather will remain mostly sunny during the day, but thunderstorms or rain may develop later in the evening and continue into the night.
