

Weather Warning: Thunderstorms and rain over parts of Southern Ghana

Urgency: Immediate

Severity: Severe

Certainty: Observed

Issued:

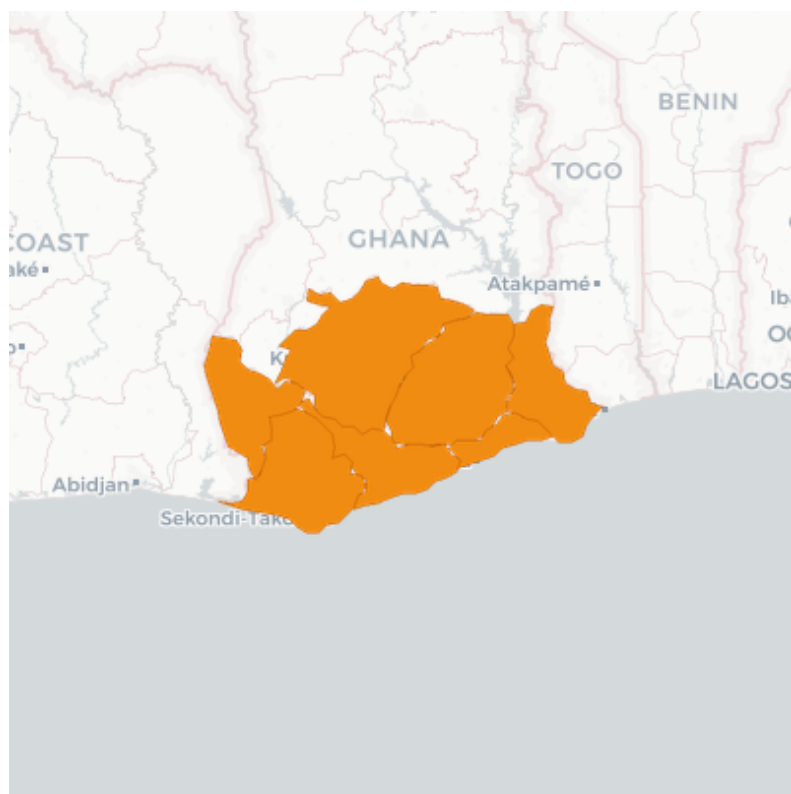

Tue 26 May 2026
14:25

Effective:

Tue 26 May 2026
14:25

Expires:

Tue 26 May 2026
21:00

Area:

Volta, Eastern, Greater Accra, Ashanti, Central, Western, Western North

Description:

A moderate rainstorm has engulfed southern Ghana and is expected to continue producing thunderstorms of varying intensities this afternoon into the evening.

Instruction:

1. Localised flash floods are expected for low-lying areas. 2. Motorists and pedestrians are advised to refrain from moving through flood waters. 3. Motorists are cautioned to drive

within required speed limits and use fog lights when visibility is poor. 4. Strong winds are likely to break weak structures so do not seek shelter under them.
