Transition	22	35
Northern	24	37

SUMMARY: Early this morning, mist or fog will develop over some forest, mountainous, and coastal areas leading to reduced visibility with chances of slight rain in some places. As the day progresses, a mixture of sunshine and clouds will persist across the country during the afternoon hours. However, thunderstorms with rain are likely over some parts of southern Ghana from mid-afternoon into the evening hours. Northern Ghana may also experience some isolated thunderstorms or rain from late afternoon into the night.
