Issued:

Wed 03 Jun 2026
20:02

Effective:

Wed 03 Jun 2026
19:50

Onset:

Wed 03 Jun 2026
20:00

Expires:

Wed 03 Jun 2026
23:00

Area:

Volta, Oti, Eastern, Ashanti, Bono East, Bono

Description:

A rainstorm currently situated over central Togo and tracking westward is anticipated to produce moderate to heavy rainfall across Volta, Oti, Bono East, Ashanti and Bono regions. Areas including Ho, Vakpo, Hohoe, Kete Krachi, Dambai, and Jasikan in the Volta Region, as well as the Eastern Region, are expected to be impacted between 8:00 PM

and 10:00 PM. The Ashanti, Bono, and Ahafo regions are also likely to experience similar wet and potentially intense conditions later in the night.

Instruction:

Residents in the affected regions are advised to take precautionary measures ahead of the approaching rains. Avoid outdoor activities during heavy downpours, and stay clear of flooded roads and waterways. Kindly stay updated through official weather bulletins and alerts from the Ghana Meteorological Agency (GMet)
