| Sector     | Minimum Temperature (°C) | Maximum Temperature (°C) |
|------------|--------------------------|--------------------------|
| Coast      | 24                       | 32                       |
| Forest     | 23                       | 32                       |
| Transition | 23                       | 35                       |
| Northern   | 25                       | 38                       |

**SUMMARY:** This afternoon, mostly cloudy weather will prevail over southern Ghana with occasional breaks of sunshine. The cloud cover is likely to trigger thunderstorms or rain over parts of the coast, middle and transition sector from the afternoon into the evening. Meanwhile, northern Ghana will experience mostly sunny conditions with occasional cloud development. However, thunderstorms or rain anticipated from late afternoon into the evening.
