Urgency: Expected **Severity:** Severe **Certainty:** Likely

Issued: Sat 06 Jun 2026 02:50	Effective: Sat 06 Jun 2026 00:30	Onset: Sat 06 Jun 2026 02:00	Expires: Sat 06 Jun 2026 08:00
--	---	---	---

Area:
Northern, Northern East, Upper East, Upper West, Savannah

Description:
A rainstorm has been observed over Northern Benin moving westward into Ghana. This storm is expected to bring moderate to heavy rains to the Northern sector of Ghana this tonight into early morning tomorrow. The storm is expected to produce rain with thunder within the Upper East, Northeast and Northern regions between 2:30 am and 6:00 am and drift to the west to affect the Upper west and Savannah regions between 4:00 am and 8:00am. A separate rainstorm has formed ahead and is likely to produce rain of varying intensity within the southern parts of the Northern region into parts pf the Savannah region between 1am and 3am. Kpandai, Bimbilla, Salaga and surroudings are expected to be affected.

Instruction:

Residents in the affected regions are advised to take precautionary measures ahead of the approaching rains. Avoid outdoor activities during heavy downpours, and stay clear of flooded roads and waterways. Kindly stay updated through official weather bulletins and alerts from the Ghana Meteorological Agency (GMet)
