SUMMARY: This morning, thunderstorm or rain are expected to persist over parts of the northern, transition, middle and coastal sectors, while partly cloudy conditions prevail elsewhere. Also, during the early hours of the morning, mist or fog patches are likely to form over a few forested and hilly areas. As the day progresses, mostly cloudy conditions with occasional sunshine will dominate southern Ghana, while the northern sector experiences sunny with occasional cloud cover. However, from late afternoon into the evening, thunderstorms or rain are expected to affect parts of the middle, transition and northern sectors.
