

# Alert: Rain Spreading Across Coastal Ghana

 **Urgency:** Immediate       **Severity:** Severe  
 **Certainty:** Observed

<b>Issued:</b> Sat 06 Jun 2026 06:28	<b>Effective:</b> Sat 06 Jun 2026 05:45	<b>Onset:</b> Sat 06 Jun 2026 05:45	<b>Expires:</b> Sat 06 Jun 2026 11:00
--	---	---	---

**Area:**  
southern Ghana

**Description:**  
The storm referenced in the earlier alert has now swept across the southeastern part of the country. The Volta, Eastern, and Greater Accra regions are currently seeing rainfall of varying intensity, with coastal Ghana expected to experience the rain this morning. Coverage is anticipated to expand further across these regions, as well as the Central and Western regions, as the weather system progresses.

**Instruction:**

Residents in the affected regions are advised to take precautionary measures ahead of the approaching rains. Avoid outdoor activities during heavy downpours, and stay clear of flooded roads and waterways. Kindly stay updated through official weather bulletins and alerts from the Ghana Meteorological Agency (GMet).
