Northern	21	35

**SUMMARY:** Mostly cloudy conditions are expected to persist throughout the country from the night into the morning hours with possible rainfall activities over parts of the coastal, inland and northern sectors. During the early morning hours, patches of mist or fog will form over parts of the coastal, forest, and mountainous areas, which may lead to reduced visibility. As the day progresses, cloudy conditions with occasional sunshine will dominate southern Ghana with the likelihood of thunderstorms and rain from late afternoon into the evening hours.
