

⚠️ ALERT: Rain approaching Southeastern Ghana

🕒 Urgency: Expected **⚠️ Severity:** Moderate
🎯 Certainty: Likely

Issued:	Effective:	Onset:	Expires:
Mon 08 Jun 2026 21:53	Mon 08 Jun 2026 21:45	Mon 08 Jun 2026 22:00	Tue 09 Jun 2026 04:00

Area:
Volta, Oti, Eastern, Greater Accra, Bono East, Savannah, Ashanti

Description:

A moderate rainstorm has been observed over the coast of Togo and moving towards the northwest. This storm is expected to bring rain of varying intensity to the Volta (between 10PM and Midnight), southern parts of the Eastern (between 10:30pm to 02:00am and Greater Accra (11pm to 3am) regions. A separate rain cloud has been observed within the Oti region and is expected to spread to more areas within the region and into parts of the Eastern, Savannah, Ashanti and Bono East regions.

Instruction:

Residents in the affected regions are advised to take precautionary measures ahead of the approaching rains. Avoid outdoor activities during heavy downpours, and stay clear of flooded roads and waterways. Kindly stay updated through official weather bulletins and alerts from the Ghana Meteorological Agency (GMet).
