

## Weather Warning: A Rainstorm expected over Southern Ghana

 **Urgency:** Expected       **Severity:** Severe  
 **Certainty:** Observed

**Issued:**

Wed 10 Jun 2026  
20:31

**Effective:**

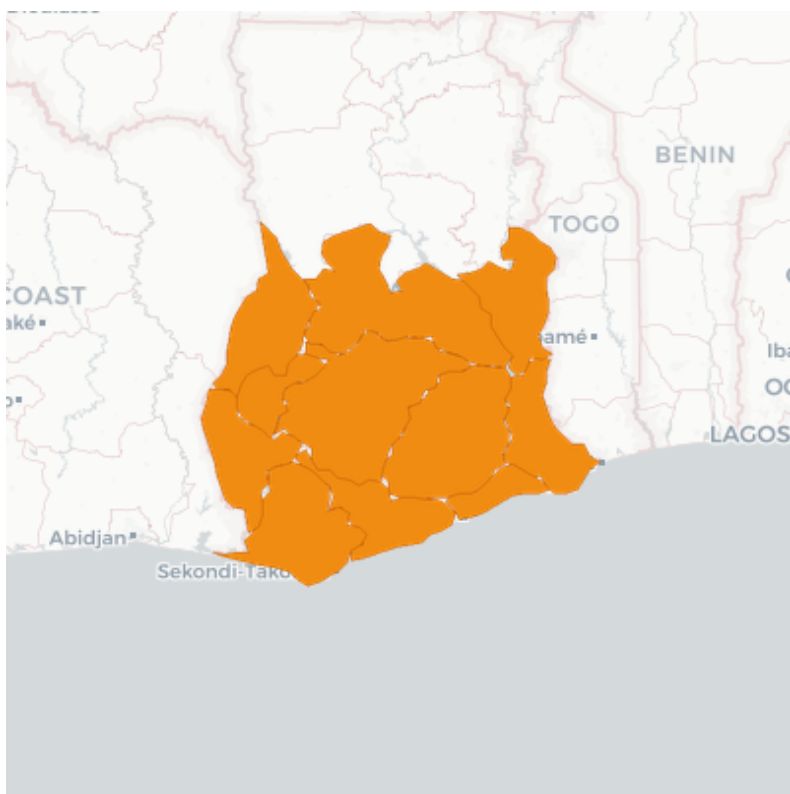

Wed 10 Jun 2026  
20:31

**Onset:**

Wed 10 Jun 2026  
21:00

**Expires:**

Thu 11 Jun 2026  
04:00

**Area:**

Volta, Oti, Greater Accra, Eastern, Central, Ashanti, Bono East, Western, Western North, Ahafo, Bono

**Description:**

An active rainstorm approaching Ghana from Togo is expected to affect most places over southern Ghana from 9:00 pm to 4:00 am tomorrow with moderate to heavy thunderstorms. Gusty winds are expected to accompany the rainstorm.

**Instruction:**

Avoid taking shelter under weak structures. Move to higher grounds if possible to be safe from flash floods. Motorists traveling overnight are cautioned to drive within speed limit and use fog lights due to poor visibility and slippery roads.
