Coast	22	27
Forest	22	30
Transition	22	31
Northern	24	32

SUMMARY: The rainstorm mentioned in the earlier weather updates has weakened over the coast of Ghana with the bulk of it in the ocean. However, the rainstorm will continue to cast cloudy conditions whiles producing intermittent slight to moderate rains over the coast and middle sectors this afternoon and into the evening. The transition and northern sectors are also expected to experience slight rains.
