SUMMARY: A band of thunder and rain clouds observed over the eastern portions (Upper East, North- East, Northern, Oti, Volta, Eastern and Greater Accra Regions) of the country is currently producing thunderstorms with rain of varying intensities. This is expected to intensify and drift westwards to produce thunderstorms or rain over most areas within the western flank (Upper West, Savannah, Bono, Ahafo, Bono- East, Ashanti, Central, Western and Western- North Regions) of the country from this evening into the night. Mist or fog patches will form over parts of the coastal, forest and mountainous areas during the early hours of tomorrow with the likelihood of slight to moderate rain along the coast.
