SUMMARY: Rain of varying intensity is expected tonight over parts of the northern, transition, coastal, and inland areas of the country. Along the coastline and inland areas, slight to moderate rain is likely to persist into the morning and afternoon hours under mostly cloudy conditions. Mist or fog patches may form over hilly and forested areas during the early morning hours. As the day progresses into the afternoon, northern Ghana will experience sunny weather with periodic cloud cover, while some areas in the southern half may experience thunderstorms or rain.
