Transition	22	33
Northern	24	35

SUMMARY: This afternoon, mostly cloudy conditions will prevail over southern Ghana although occasional sunshine is expected later in the day. The cloud cover is likely to produce intermittent light rain or drizzle over parts of the coast and inland areas. A few places within the middle and transition sectors are also expected to experience thunderstorms or rain. Northern Ghana will be dominated by a mix of sunshine and cloud with isolated thunderstorms expected to develop later this evening.
