<b>Northern</b>	<b>25</b>	<b>35</b>

**SUMMARY:** This morning, southern Ghana will generally be mostly cloudy, with rain of varying intensity accompanied by occasional thunder expected over parts of the coastal and middle sectors. Mist or fog patches are also likely to form over parts of the coast, forest, and hilly areas during the early hours. Meanwhile, northern Ghana will experience partly cloudy conditions. As the day progresses into the afternoon, northern Ghana will become mostly sunny with periodic cloud cover, while the southern half remains predominantly mostly cloudy. However, thunderstorms or rain are expected over parts of southern Ghana later in the afternoon.
