Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	23	31
Forest	22	32
Transition	21	33
Northern	24	35

SUMMARY: Rain of varying intensity is expected over parts of the coastal, middle, and transition sectors tonight. During the early hours of the morning, mist or fog patches are likely to develop over hilly and forested areas, while slight rain is expected along the coast under mostly cloudy conditions. As the day progresses, variably cloudy weather will prevail across much of southern Ghana, whereas the northern sector will experience sunny conditions with periodic cloud cover. By late afternoon, thunderstorms or rain are expected over a few places within the middle and transition sectors.
