Northern	24	29

SUMMARY: Mostly cloudy conditions are expected to prevail across much of the country this evening into the night, with only a slight chance of light rain or drizzle over isolated areas within the forest belt. By early tomorrow morning, patches of mist and fog are likely to develop over forested and mountainous areas, leading to localized reductions in visibility, while generally cloudy conditions persist across all sectors.

NB: *Relatively cool night and early morning temperatures are expected across the country.*
