Likelihood ↑	High (>60%)	G	H
	Medium (40% - 60%)	D	E
	Low (<40%)	A	B
		Low	Medium
		Impact →	

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	23	29
Forest	23	30
Transition	21	32
Northern	24	33

SUMMARY: This morning, very few places within the northern and transition sectors will experience rain with occasional thunder. Meanwhile, southern Ghana will remain mostly cloudy conditions, with mist or fog patches forming over the coastal, forest, and mountainous areas during the early hours. Some places may also experience slight rain or drizzle. As the day progresses into the afternoon, a mixture of cloudiness and sunshine will prevail across the country, However, thunderstorms or rain are expected to develop over parts of the north and a few areas within the transition and middle belts from late afternoon into the evening hours.
