

18-HOUR FORECAST FOR GHANA

VALID FROM 6PM, 23/07/2026

SUMMARY: Cloudy conditions are expected across most parts of the country this evening, with slight rain likely over parts of the **coastal, middle, and transition sectors**. During the night mostly cloudy skies will prevail over the entire country, with only a few coastal areas likely to experience slight rain. By early tomorrow morning, mist or patches of fog are expected over parts of the **coast, forest, and mountainous areas**, leading to reduced visibility, while the northern sector is expected to remain mostly cloudy.

NB: Relatively cool night and early morning temperatures are expected across the country
