Transition	22	31
Northern	24	32

SUMMARY: Partly cloudy conditions are expected to prevail across most parts of the country throughout the night. During the early hours of the morning, mist or fog patches will form over parts of the coastal, forest, and mountainous areas, reducing visibility. As the day progresses a mixture of cloudiness and sunshine will prevail over most places within the country with chances of thunderstorms or rain over places within the middle, transition and northern sectors.
