SUMMARY: Mostly cloudy conditions will prevail across southern Ghana this morning, while the northern sector remains partly cloudy. Mist or fog patches are expected over parts of the coast, forest, and mountainous areas. A few areas north of the coast and within the middle sector are likely to experience slight rain or drizzle during the morning and afternoon. As the day progresses, a mix of clouds and sunshine is expected across most sectors with thunderstorms or rain likely over parts of the middle, transition, and northern sectors during the afternoon and evening.

NB: *Relatively cool night and early morning temperatures are expected across the country.*
