Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	27
Forest	23	27
Transition	22	27
Northern	24	28

SUMMARY: Mostly cloudy weather will prevail across the country this evening into the night. The rain and thunderclouds currently affecting the northeastern parts are expected to persist and spread to more areas within the northern and transition sectors. Early Friday morning, mist or fog patches are likely to develop along the coast, mountainous and forest zones, potentially reducing visibility in some places.

NB: Relatively cool night and early morning temperatures are expected across the country.
