

18-HOUR IMPACT-BASED FORECAST FOR GHANA

Weather Forecasting Risk Table			
Likelihood ↑	High (>60%)	G	H
	Medium (40% - 60%)	D	E
	Low (<40%)	A	B
		Low	Medium
		Impact →	

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	23	28
Forest	22	30
Transition	22	29
Northern	23	32

SUMMARY: This morning, mostly cloudy weather conditions will prevail across all sectors of the country with misty and foggy conditions forming over forest and hilly areas to reduce visibility range in the early hours. Over the transition and northern belts, isolated thunderstorms or rain are expected over Oti, Northern and Bono East regions during the early morning hours whiles few cases of drizzle are expected along the coast. As the day unfolds into the afternoon, periods of sunshine are expected to alternate with the clouds with very little chance of rainfall activities.

NB: *Relatively cool night and early morning temperatures are expected across the country.*
