

Weather Warning: Approaching Rainstorm towards the Northern Sector

Urgency: Expected

Severity: Severe

Certainty: Likely

Issued:

Wed 19 Aug 2026
02:40

Effective:

Wed 19 Aug 2026
02:40

Onset:

Tue 26 May 2026
02:30

Expires:

Wed 19 Aug 2026
10:00

Area:

Upper East, Upper West, Northern East, Northern, Savannah, Oti, Bono East, Bono, Ahafo, Ejura-Sekyedumase, Offinso North, Bia East, Sekyere Afram Plains North

Description:

A moderate to heavy rainstorm (Squall line) approaching the northern sector from Benin and Togo is expected to initially produce thunderstorms and rain of varying intensities over the north eastern portions of Ghana before drifting westwards to affect the western parts. Areas likely to be affected by the rainstorm include Upper East, North East, Northern, Savannah and Upper West regions. Portions of the transition belt, Oti, Bono

East, Bono regions and the northern fringes of Ashanti region are likely to be affected as well. Gusty winds are likely to accompany the rainstorm.

Instruction:

Residents are advised to take necessary precautions during the storm. Seek shelter during heavy rain and lightning, avoid open areas and isolated trees, and exercise caution while driving due to poor visibility and slippery roads. Stay updated with official information from the Ghana Meteorological Agency. In an emergency, contact NADMO on 0302 964 884 / 0291 913 077 or dial 112.
