

18-HOUR IMPACT-BASED FORECAST FOR GHANA

Weather Forecasting Risk Table			
Likelihood ↑	High (>60%)	G	H
	Medium (40% - 60%)	D	E
	Low (<40%)	A	B
		Low	Medium
			High
		Impact →	

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	30
Forest	23	32
Transition	24	32
Northern	25	33

SUMMARY: Thunderstorms and rain of varying intensity are expected to continue over parts of the northern and transition sectors this morning into the afternoon. Across southern Ghana, mostly cloudy weather conditions will dominate with few areas likely to experience slight to moderate rain. Mist and fog patches will form and reduce visibility over the few places. By afternoon, intervals of sunshine and cloudiness are expected, with chances of thunderstorms or rain in some areas from the afternoon into the evening.

NB: Early morning and night temperatures are expected increase across the country.
