18-HOUR IMPACT-BASED FORECAST FOR GHANA

Weather Forecast Risk Matrix

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	22	30
Forest	21	31
Transition	22	32
Northern	24	33

SUMMARY:Mostly cloudy conditions with pockets of rain are expected for some areas within the middle and transition sectors this afternoon. Isolated cases of thunderstorms or rain are likely over the northern sector from this afternoon into the evening hours. Meanwhile, along the coastline will be mostly sunny amidst slight chance of rain over the west coast and few areas within Greater Accra.

NB: Early morning and night temperatures are expected to increase gradually across the country.

SIGNED: Central Analysis and Forecasting Office (CAFO)
