SUMMARY: Partly to mostly cloudy weather will dominate the country tonight with a chance or rain over few areas within the middle sector. However, from dawn mist or fog patches will form over portions of the coastal, forest and mountainous zones. Also, parts of the middle and coastal sectors are likely to experience slight rain in the morning. By afternoon, sunny conditions with intermittent cloud cover will prevail across the country, with thunderstorms or rain expected to affect parts of the middle and transition sectors from late afternoon into the evening.

NB: Early morning and night temperatures are expected to increase gradually across the country.
