Description:

Localised rain-bearing clouds have developed along the Ghana-Togo border and are expected to gradually intensify and expand to produce thunderstorms with rain of varying intensities over the northern, transition, and middle sectors from this afternoon into the evening hours. Places within the inland areas of the coast are likely going to be affected as well.

Instruction:

Residents are advised to take necessary precautions during the storm. Seek shelter during heavy rain and lightning, avoid open areas and isolated trees, and exercise caution while driving due to poor visibility and slippery roads. Stay updated with official information from the Ghana Meteorological Agency. In an emergency, contact NADMO on 0302 964 884 / 0291 913 077 or dial 112.
