Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	23	31
Forest	23	32
Transition	22	32
Northern	24	34

SUMMARY: Thunderstorms or rain currently over some areas within the middle, transition and northern sectors are expected to affect a few more places within these sectors. Slight rain may also occur over some coastal and inland towns tonight. Mostly cloudy conditions will prevail across most parts of the country tonight into the morning hours. Mist and fog patches are likely to form over coastal, hilly and forest zones during the early hours of tomorrow. By afternoon, rain and thundery activities are expected across parts of the transition and northern sectors.
