Coast	22	26
Forest	21	27
Transition	22	26
Northern	23	27

SUMMARY: Thunderstorms or rain of varying intensities will affect parts of the Northern and Transition sectors from this evening into the night. Elsewhere, mostly cloudy weather will prevail. During the early hours of Wednesday, mist and fog patches are likely to develop along parts of the coast, forest and mountainous areas, potentially reducing visibility. Parts of the Northern and Transition sectors are likely to experience thunderstorms or rain into the morning, while slight rain is anticipated over parts of the coast.
