

Thunder with rain of varying intensity over the marine space

Urgency: Expected

Severity: Minor

Certainty: Observed

Issued:

Thu 07 Nov 2024
5:12 PM

Effective:

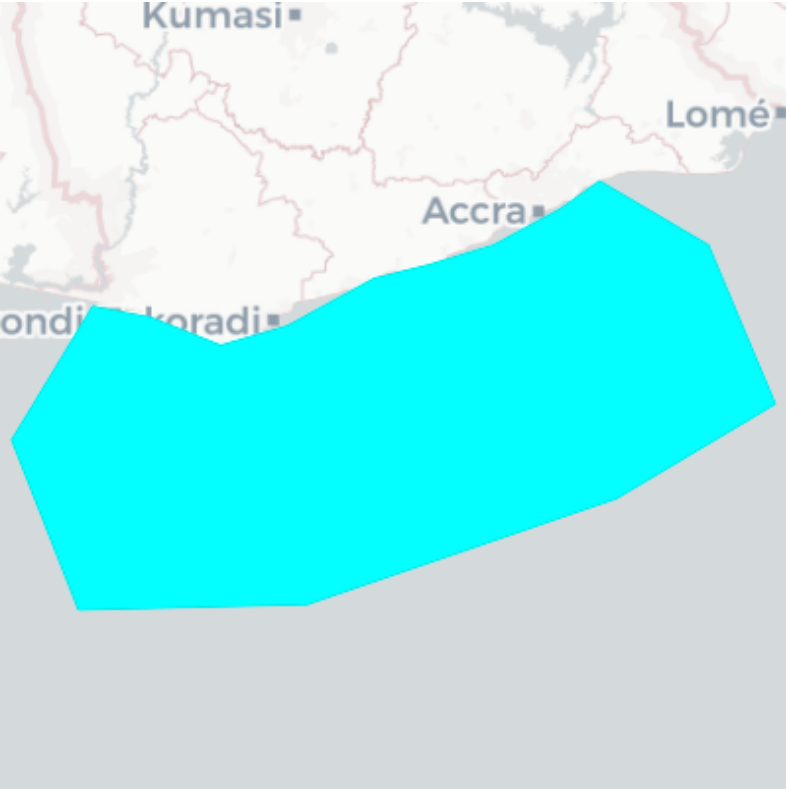

Thu 07 Nov 2024
5:30 PM

Onset:

Thu 07 Nov 2024
5:30 PM

Expires:

Fri 08 Nov 2024
2 AM

Area:
Maritime Region of Ghana

Description:

A weak to moderate rain and thunder cloud over the eastern portion of Ghana's maritime region is expected to move westwards to affect more areas of the region. Some coastline areas and offshore are anticipated to experience rain of varying intensity with thunder this evening into the night.

Instruction:

Be prepared for choppy seas, strong winds, and thunderstorms. Consider delaying or postponing any non-essential maritime activities. Ensure all vessels are properly secured and have necessary safety equipment on board. Avoid venturing too far from safe harbor areas during the storm. Monitor communications and be ready to call for assistance if needed.
