

24-HOUR PM2.5 AIR QUALITY FORECAST FOR GHANA

Date Issued	Time Issued	Valid time	Valid date
11/10/2026	2200UTC	00UTC	12/10/2026

SUMMARY: Particulate Matter (2.5 micrometers or smaller) levels are expected to range from **Good** to **Unhealthy for Sensitive Group**. The Transition to the Northern regions (Prang, Kete Krachi, Bole, Salaga, Tamale, Wa, Navrongo, Babile and its environs) are expected to experience Moderate to Unhealthy air quality. The Sensitive group (children, elderly, or those with asthma) may experience minor to moderate symptoms from long-term exposure. The forest and Coastal areas however will experience Good air quality. This is generally accepted for most individuals, hence, outdoor activities is allowed.

ADVISORY FOR UNHEALTHY CONDITIONS

Sensitive groups should wear a mask outdoors.

Sensitive group should reduce outdoor activities

Close your windows to avoid bad outdoor air.
