Coast	24	33
Forest	23	35
Transition	23	36
Northern	24	38

SUMMARY: Mostly cloudy conditions will prevail across most places in the country overnight, with rainfall expected along the coast and inland areas. Early tomorrow morning, mist or fog patches may develop over hilly and forested towns, potentially reducing visibility. By afternoon, sunny conditions will dominate much of the country, while rain and thundery activities are expected over parts of the coastal and middle sectors later in the day.
