Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	33
Forest	23	35
Transition	23	35
Northern	24	38

SUMMARY: Predominantly mostly cloudy conditions are expected across most places within the country overnight. However, thunderstorms or rain of varying intensities may affect parts of the coastal and inland areas, as well as the middle sector. Early tomorrow morning, mist or fog patches may develop over hilly and forested areas, potentially reducing visibility.
