Forest	**23**	**26**
Transition	**23**	**26**
Northern	**24**	**29**

SUMMARY: As highlighted in the Weather Alert issued earlier, thunderstorms and rain are expected to persist over parts of the ***coastal, middle and transition sectors*** this evening, with moderate to heavy rainfall anticipated in some areas. Mostly cloudy conditions within the Greater Accra Region are likely to produce slight to moderate rain over some areas, including ***Nsawam, Pokuase, Achimota, Sapeiman and nearby communities***. Isolated thunderstorms or rain are also likely over parts of the northern sector. Early tomorrow morning, mist and patches of fog may develop along the coastline, mountainous and forest areas, potentially reducing visibility.
