## INLAND WATER IMPACT-BASED FORECAST

## **WEATHER SUMMARY**

Variably cloudy weather conditions are expected to persist throughout the forecast over the lake and its surroundings in the morning, with restricted visibility due to mist over the middle and southern areas in the early hours of the morning. Sunny spells will appear across the lake in the afternoon, although slightly hazy conditions are forecast over the southern half of the lake, while the northern half will remain dry and hazy all

day MORNING (09/12/2024) AFTERNOON (09/12/2024) **EVENING (09/12/2024)** 

**Date** 09/12/2024 Time Issued 4:00 AM Valid From 6:00 AM Nowcasting Risk
