

24-HOUR FORECAST FOR GHANA

VALID FROM 12PM, 21/01/2025

SUMMARY: The northern half of Ghana will have dry and hazy sunshine conditions this afternoon. Sunny weather amidst slightly hazy conditions is anticipated for the southern half with few cloud developments likely to produce showers to affect some places along the coastal and inland areas. Visibility is expected to range from **3000 meters** to **9000 meters** across the country.

NB: Caution should be taken when handling naked fires to prevent any form of fire outbreak due to the dryness within the country.
