GMet Forecast Office

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: Mist or fog patches will be experienced over southern Ghana during the early hours of the day. Sunny weather conditions with periodic cloudiness are expected over most places of the country as the day unfolds, however, thundery showers are anticipated over few places along the coastline and inland areas later in the day. Dry and hazy conditions will persist over the northern half throughout the forecast period. Visibility across the country is projected to range between **1000 meters** and **8000 meters**.

CAUTION!

1. *Naked fires should be handled cautiously to prevent any form of fire outbreak due to the dryness in some parts of the country.*
2. *Motorists are advised to use fog lights and drive within appropriate speed limits due to deteriorated visibility.*
