Gmet Forecast Office

24-HOUR FORECAST FOR GHANA

VALID FROM 6PM, 31/01/2025

SUMMARY: Most places within the southern half are expected to have partly cloudy conditions with some cases of thunderstorms or rain over few places within coastal, slightly north of the coastline and middle sectors this evening. The dry and slightly hazy conditions over northern Ghana will persist throughout the forecast period. Mist or fog patches are expected to form over the forest, coastal and mountainous areas early tomorrow morning with visibility ranging from **300 meters** to **9000 meters**.

NB: Relatively cool night and early morning temperatures will be experienced over the northern sector of the country.
