Gmet Forecast Office

24-HOUR FORECAST FOR GHANA

VALID FROM 12PM, 04/02/2025

SUMMARY: Dry and hazy weather will dominate most places across the country with different degrees of intensity. However, from late afternoon into the evening, few cases of localised thunderstorms or rain are anticipated over some areas along the coast and the forest belt period. Visibility is expected to range from **600 meters** to **9000 meters**.

NB: Caution should be taken when handling naked fires to prevent any form of fire outbreak due to the dryness within the country.
