

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: Generally, dry and hazy weather of varying intensities will dominate all sectors of the country. As the day progresses, sunny conditions with periodic cloud development is anticipated for areas within southern Ghana with a chance of localised thunderstorms or rain over few places in west coast and inland areas from late afternoon into the evening. Mist or fog patches are expected across much of the southern half of the country this morning. Visibility across the country is expected to range between **1000 meters** and **9000 meters**.

CAUTION!

- Naked fires should be handled cautiously to prevent any form of fire outbreak due to the dryness in some parts of the country.**
- Motorists are advised to use fog lights and drive within appropriate speed limits due to deteriorated visibility.**
