Gmet Forecast Office

24-HOUR FORECAST FOR GHANA

VALID FROM 12PM, 11/02/2025

SUMMARY: The southern half of the country is expected to be sunny amidst clouds development with a moderate chance of rain with or without thunder along the coastline and inland areas from this afternoon into the evening. Dry and hazy weather with varying intensities will dominate over the northern, transition and some areas of the middle sector throughout the forecast period. Visibility across the country will range between **4000 meters** and **9000 meters**.

NB: Caution should be taken when handling naked fires to prevent any form of fire outbreak due to the dryness within the country.
