 GMet Forecast Office

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: Mist with fog patches will dominate the forest, coastal and hilly areas of southern Ghana this morning. Sunny weather with occasional cloudiness will be experienced as the day progresses, with a likelihood of rain with or without thunderstorms from late afternoon into the evening hours over some areas in the southern sector. Dry and hazy weather will persist over the northern and transition sectors throughout the forecast period, with sunny conditions in the afternoon. **500 meters to 8000 meters** visibility range is anticipated across the country.

- Naked fires should be handled cautiously to prevent any form of fire outbreak due to the dryness in some parts of the country.**
- Motorists are advised to use fog lights and drive within appropriate speed limits due to deteriorated visibility.**
