

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: This morning, mist and fog patches are anticipated along the coastal, forest, and mountainous areas. As the day progresses, hot and sunny weather will prevail, with chances of localized thunderstorms or rain of varying intensities affecting parts of southern Ghana from late afternoon into the evening. Northern Ghana will experience predominantly fairly dry and slightly hazy conditions, with a low likelihood of localized showers in the western areas. Visibility throughout the country is expected to range between **500 meters** and **9000 meters**.

CAUTION!

1. **Naked fires should be handled cautiously to prevent any form of fire outbreak due to the dryness in some parts of the country.**
2. **Motorists are advised to use fog lights and drive within appropriate speed limits due to deteriorated visibility.**
